

// Acumen Fuse® World Tour

You are cordially invited to a global seminar series.

Learn how Acumen Fuse has helped countless projects successfully complete on-time and on-budget.

Featuring: Acumen Fuse®, Fuse 360 and Acumen Cloud™

Acumen Fuse is a project analysis software which complements your existing tool set including Primavera, MS Project, Asta PowerProject, Deltek Open Plan, Cobra, Primavera Risk Analysis, ARES Prism^{G2} and Excel .

With Fuse, you can become the project manager who:

- saves huge amounts of time and effort by eliminating manual critiques
- knows how to create realistic schedules and inspire project confidence
- troubleshoots efficiently and effectively, while still keeping projects on-track
- has keen comparative insight into how projects are progressing
- consistently delivers quantitative excellence through on-time, on-budget projects

Only Fuse includes up-to-date and reliable planning and execution analysis providing:

- **Schedule Quality Assurance:** Set your own metrics and thresholds to use as a benchmark against future plans or status updates.
- **Performance Evaluation & Schedule Acceleration:** Identify potential problems while there is still time for recovery and automatically generate scenarios to get your project back on track, or even ahead of schedule!
- **Schedule Comparison & Forensic Analysis:** Fuse can compare an unlimited number of schedule updates and identify not only the differences, but the impact of those changes.
- **Customization:** Evaluate schedule, cost, risk, earned value and performance using a combination of Acumen-specific and industry-standard metrics, all customizable to meet your project's specific needs.

- **Project Reporting:** Quickly generate reports on quality, performance, or status of the project from Fuse. Even use the API to automatically publish these reports to 3rd party applications, the web, or Microsoft Sharepoint.
- **New! Acumen Cloud™:** Connect to Acumen's cloud-based knowledge base for quick comparison of similar project's scores to understand your project's viability.

Find out why companies like **Chevron, KBR, NASA, Bechtel, PwC, Parsons** and **Shell** have chosen Acumen Fuse.

At Acumen, we believe there are two necessary ingredients for a perfect schedule, and we develop solutions around this core belief.

1. **Schedule Integrity:** An integral factor in the reliability of a project plan.
2. **Risk Consideration:** A realistic, risk-adjusted schedule is much more valuable than a deterministic schedule.

World Tour Dates

All seminars are free of charge and are eligible for PDUs. Register now to reserve a seat at the seminar of your choice and to receive additional event details.
